NETWORK INTELLIGENCE

SIPSELECT SERVICES

Network Intelligence has created SiPSelect Services, in response to the needs of Carriers, Resellers and Hosted Service Providers. Services can be selected directly from the carrier or delivered on an IP connection(s) as a Managed Service with a single bill for all services. Direct Wholesale Carrier pricing, guarantees the margins needed to support your business model.

SIPSelect utilizes direct relationships with 40+ carriers. Each carrier has unique capabilities which we leverage to help our customers deliver the features and cost savings dictated by their business plan. A few of the suppliers are listed below:

- o Wholesale Carrier services available
